### 2015 CRIME STATISTICS AND TRENDS

The following information is a brief look at the Crime Statistics and Crime Trends for 2015 for the El Dorado County Sheriff's Office. These statistics are the first to include recent legislation (Proposition 47), and while there are some significant statistical differences between 2014 and 2015, a majority of these changes represent the way some crimes are now being reported under this new legislation. Having another year of data collection will provide a clearer picture of the effects of Proposition 47.

YEAR	<u>Yearly Crime Trends</u>
